EMBEDDING A VIDEO FROM FILMS ON DEMAND INTO BLACKBOARD

Find a video in the Library subscription database: Films on Demand

Locate a video and click “Embed”

Note the embed code shown below.

Click and drag the mouse cursor over the code in the frame; click the right mouse button and select “Copy” from the menu that displays.

Go to your course in Blackboard

Turn the Edit mode “On”.

Based on a document created by Stephen Simcoe
You want to be in an area where you can build content, for example a Learning Module or in this case the “Getting Started” section.

Hover the mouse pointer over the “Build Content” menu item and select “Blank page” from the drop-down menu.

Give the page a name.

* Indicaes a required field.

Locate and click the button labeled “HTML” on the tool bar in the Content area.
The “HTML Code view” widow displays. Paste the code that was copied from Films on Demand site into this window.

One option is click the right-mouse button and selected “paste” from the menu that displays.

After the code is pasted into the window, select the “Update” button in the lower, right corner.
Click the “Submit” button.

To view the video, turn the Edit Mode “Off” and click the link for the page that you created.
